2018 New York State Healthcare Facilities Conference

Healthcare, Winning Together | October 15th and 16th

2 DAY | 2 TRACK CONFERENCE AGENDA

MONDAY, OCTOBER 15, 2018

TRACK ONE

Time CYPRESS Rooms A-C

6:30 - 8:30 Registration and Breakfast

8:30 - 9:00 Opening Remarks - John Gaetano Conference Chair | Edward Browne, Region 1 Board Member

9:00 - 10:30 Keynote: Lt. Col. Rob "Waldo" Waldman

10:30 - 11:00 Break / Assorted Breads & Coffee — Book Signing in the Atrium with Waldo

11:00 - 12:00 NYSOMH - Sue Knapik Asst Dir. OMH

12:00 - 1:30 Attendee Lunch & Exhibitor Show

1:30 - 3:00 The Joint Commission
Ken Monroe PE, MBA, CHC, PM

3:00 - 3:15 Break - Beverages

3:15 - 4:45 Dr. Dave Dziewulski NYSDOH
Legionella Update
Janet Stout
Special Pathogens Laboratory

5:00 - 8:00 Cocktail Reception with music by Classified
6:30 Door Prize Drawing

TRACK TWO

Seneca & Onondaga Room

NYSDOH
Long Term Care - Mary Gates/Dr. Debra Sottolano

DNV Update - Kelly Proctor

2018 Procedure Rooms
Bryan Langland - NBBJ

TUESDAY, OCTOBER 16, 2018

TRACK ONE

6:30 - 7:45 Registration and Breakfast

7:45 - 8:00 ASHE Update Region 1 Leader / Chapter Update

8:00 - 9:00 Udo Ammon - NYSDOH Update

9:00 - 10:00 Doug Erickson - FGI Guidelines

10:00 - 10:15 Break / Assorted Breads & Coffee

10:15 - 11:00 Udo Ammon / Doug Erickson

11:00 - 12:00 Brad Keyes
Accreditation Document Review

12:00 - 1:30 Attendee Lunch & Exhibitor Show

1:30 - 3:00 Active Shooter Part - 1 Vegas Tragedy
Jake Marshall - HCA Healthcare

3:00 - 3:15 Break

3:15 - 4:15 Active Shooter part - 2
Mike Walton - Armoured One

4:15 - 4:30 Closing Remarks

TRACK TWO

Seneca & Onondaga Room

Pharmacy 797 & 800 - Howard Cohen

HVAC & Airborne Infectious Disease - William P Bahnfleth

Hospital Acquired Infections Dr. Stephanie Taylor

Welcome

TO THE 2018 NYS HEALTHCARE FACILITIES CONFERENCE

"Winning Together"

It is my pleasure to welcome you to the 2018 New York State Healthcare Facilities Conference, "Winning Together", presented by committee members from all five NYS chapters. These include Central New York Society of Healthcare Engineers, Inc. (CNYSHE), Eastern New York Society for Healthcare Engineering (ENYSHE), Genesee Valley Regional Association of Healthcare Engineers (GVRAHE), Hospital Engineering Society of Greater New York (HESGNY), and Western New York Society of Healthcare Engineers (WNYSHE).

Our theme this year "Winning Together" is apparent as this is the first year we have had a combined effort of all NYS Chapters coming together to share ideas on how this event can be most rewarding for everyone in attendance.

This year is our fourth annual healthcare conference held here at the Turning Stone Resort and Casino. Now let's talk about all of the exciting things about this conference in 2018.

- The 2018 conference exceeded last year's healthcare participation as we are over 45 healthcare organizations represented!
- Our Exhibitor participation continues to grow and exceed last year as there are several new first time exhibitors and over 88 exhibitor booths. This year several levels of conference sponsorship including Diamond, Platinum, Gold, Silver, and Bronze were obtained by 22 Exhibitors. That is almost 25% of the total Exhibitors. Please thank all of exhibitors for supporting this conference and network with all them so they may share their expertise. This is a first for exhibiting in the Event Center so be sure to make your way around to all 88 participating!
- The variety of exhibitors at this conference is something to be proud of. This year our exhibitors include expertise in the design of a healthcare facility, the builders and construction specialists, the energy specialists, the water specialists, and everything from flooring, roofs, paint, fire & life safety, and managing your facility accreditation is here at this conference!
- This year we have raised the bar for the keynote speaker. We are proud to have Rob "Waldo" Waldman here to deliver our keynote. Those that attend the annual ASHE Conference may have heard Rob speak a few years ago. It is with great pleasure that we are able to share his motivational speaking with all of the conference attendees including our exhibitors! Please note there are 50 copies of Rob's New York Times and Wall Street Journal Best Seller "Never Fly Solo" available for purchase for the a personal book signing event after the keynote. Rob will be available after the keynote to shake hands and greet all! Also be sure to keep your challenge coin handy. Rob will elaborate more on the coin during his keynote.
- Monday's cocktail reception with hors d'oeuvres and the band "Classified" is a first!!!! Monday night we will also be raffling off door prizes at approximately 6:30 PM; you must be present to win and have received a ticket after turning your sponsor / exhibitor signed card found in your packet to the CNYSHE booth. A minimum of 15 signatures is required from our exhibitors that have sponsored this event. You have two free beverage tickets in your lanyard for the cocktail reception. You must be 21 by NYS Law in order to use them for beer or wine. The band has asked me to tell you that dancing is allowed and encouraged!
- Suggestions last year included developing simultaneous tracks that will allow for more speakers and also speaking tracks for our design professionals. We have accomplished this.
- We have added for the first time student scholarships for individuals that are matriculated and would like to learn more about obtaining work in any of the areas associated with healthcare facilities. If you see them during the conference please give them a warm welcome and encouragement.

- We will be collecting pictures throughout the event. These pictures will be shared on the chapter websites and be used for future conference promotions.
- Unfortunately we were not able to have a pre-conference 8 hr review and education session for the “CHC” Certified Healthcare Constructor course this year because there were no instructors available from (ASHE) American Society Healthcare Engineering. Please note this education event has been scheduled for next year on Sunday October 5th, 2019 with an optional test for certification to be held after. There will be a separate fee for this course and a separate fee for the certification test not related to the conference fee. Please note taking the course does not guarantee passing grade on the CHC certification test.

Last year it was our intent to continue to grow this facilities conference into the largest NYS healthcare facilities conference. Winning Together we have done that. We host the #1 event in speaking talent, exhibiting, and attendance. It is always our intention to make this event affordable to all healthcare employees and healthcare associated businesses across the state. That yields the true meaning of “Winning Together”. All of us coming together to obtain education, share new ideas, processes, and systems, while having the ability to network with other peers related to healthcare fields.

As always thanks to the Turning Stone Managers, Chefs, and staff that continue to provide great conference breakfast and lunches! I thank the conference committee for their input and valued ideas, our graphic artist Melissa Snavlin from Dwyer Architectural, Kevin Leach & Aaron Petty our conference treasurer & registration specialists, Brenda Michaud, Michelle Trott and Michael Zanghi for speaker CEU’s, our highly qualified speakers, our sponsors and exhibitors, my wife for supporting my late nights after work for this conference, and YOU for being part of this healthcare Winning Team. For without you this conference would not exist!

About the Speakers

TRACK ONE | CYPRESS ROOMS A-C

MONDAY | OCTOBER 15, 2018

6:30

Registration and Breakfast

8:30

Opening Remarks

“Healthcare, Winning Together” Kick off and Exhibitor Thank you

- CNYSHE President, John A. Gaetano
- Regional 1 Board Member, Edward Browne
- Master of Ceremony - Joe DiBitetto

Keynote - “The Wingman”

Lt. Col. Rob “Waldo” Waldman

Hall of Fame leadership speaker and author of bestseller *Never Fly Solo*.

Teaching organizations how to build trusting, revenue producing relationships with their employees, partners, and customers while sharing his experiences as a combat decorated F-16 fighter pilot and businessman. Waldo believes that the key to growth and building a culture of trust lies with your wingmen – the men and women in your life who help you to overcome obstacles, adapt to change, and achieve success. In business and life, you should never fly solo!

10:30

Break in the Exhibitors Hall and Book Signing with Waldo in the Atrium

NYS Office of Mental Health

Suicide Reduction Efforts in Psychiatric Inpatient Settings

Sue Knapik Asst. Director OMH; This session aims to familiarize attendees with resources developed by the NYSOMH Bureau of Inspection and Certification aimed at identifying risks in the environment, specifically for psychiatric inpatient settings. At the conclusion of this program, participants will be able to:

List the most common areas in hospital based psychiatric inpatient units used by patients to complete suicides. Identify at least three ligature risks commonly found in hospital based psychiatric inpatient units. Discuss the difference between the terms “ligature resistant” and “ligature free”. Recognize the steps NYS Office of Mental Health is taking to reduce suicide risk in hospital based psychiatric inpatient units.

12:00

Attendee Lunch and Exhibitors Hall

1:30

The Joint Commission Update

Ken Monroe PE, MBA, CHC, PM, Director,

Department of Engineering Standards Interpretation Group

Ken manages the daily operations of the Engineering department, provides standards interpretation and education to The Joint Commission’s Surveyors and accredited organizations, reviews equivalency requests, conducts surveys, and serves as a speaker for national, regional, state, and local audiences. At the conclusion of this presentation, participants will be able to:

- Discuss The Joint Commission mission & deemed status
- Understand which standards are scored most frequently in 2017
- Discuss the process of Standards creation
- Understand the new and revised EP’s in the LS and EC chapters

MONDAY | OCTOBER 15, 2018 - TRACK ONE CONTINUED

(We are NOT presenting a detailed EP discussion)

3:00

Break in the Exhibitors Hall

3:15

Legionella Update

Dr. Dave Dziewulski NYSDOH

NYSDOH will present a brief re-cap of Part 4, Protection Against Legionella and present examples of compliance data including the status of documentation required by health care facilities. In addition, information on outreach activities, agency interactions and links to useful online tools will be discussed..

Ending Legionnaires' Disease: Audacious and Achievable Goal

Dr. Janet E. Stout, is the director of Special Pathogens Laboratory and research associate professor at the University of Pittsburgh Swanson School of Engineering in the Department of Civil and Environmental Engineering. *CMS has mandated Legionella risk assessments and water safety plans for healthcare and LTC facilities referring facilities to ASHRAE Standard 188 and the CDC Toolkit. Successful implementation will require specific knowledge about the risk of Legionella in the built environment, Legionella guidelines and standards, the role of testing in disease prevention, approaches to prevention, secondary disinfection and other waterborne pathogens of concern. Learn what can happen when a confirmed case of healthcare acquired Legionnaires' disease is diagnosed and key elements to developing an effective water management plan. You will be better prepared for when a CMS surveyor asks for your Legionella risk assessment and water management plan.*

5:00 - 8:00

Healthcare, Winning Together Cocktail Reception

Music by Classified - Drawings at 6:30

Thank you sponsors

PLATINUM LEVEL SPONSORS

Thank you for making this mornings Keynote and this evenings reception possible.

GOLD LEVEL SPONSORS

8:00

NYSDOH Current Regulatory Conditions & CON Update

Udo Allain Ammon, AIA, CEO - Director Bureau of Architecture and Engineering Review Division of Planning and Licensure, Center for Health Care Facility Planning, Licensure and Finance

This session will include, as reference, ASHRAE 2014 Updates, review of the statistics in Healthcare facility fires as well as AER submission requirements for CON review.

9:00

FGI Guidelines Preview

Doug Erickson, FASHE, CHFM, HFDP, CHC, CEO - Facilities Guidelines Institute Senior Advisor, Specified Technologies, Inc.

"Are you ready for change?" Doug Erickson is the current CEO for the Facilities Guidelines Institute (FGI), a not-for-profit organization responsible for producing the Guidelines for Design and Construction of Health Care Facilities and whose mission is to produce consensus-based guidelines in healthcare.

10:00

Break in the Exhibitors Hall

10:15

Continued Discussions

Udo Allain Ammon, AIA, CEO | Doug Erickson, FASHE, CHFM, HFDP, CHC, CEO

11:00

Documentation Needed for a Successful Life Safety Survey

Brad Keyes CHSP, is the owner and Senior Consultant for Keyes Life Safety Compliance. *This presentation identifies the documentation necessary to succeed with a successful Life Safety Code survey.*

Learning Objectives:

- *How to prepare for the survey.*
- *Confirming compliance reported by others.*
- *Recognizing which standards are required to be compliant with.*
- *Organizing the documents for presentation during the survey.*

12:00

Attendee Lunch and Exhibitors Hall

1:30

Active Shooter Part - 1

The Las Vegas 1-October Shooting Incident from HCA's Perspective

Jake Marshall MPS, CEM, FF/NRP is an emergency management professional serving as Senior Director for Enterprise Preparedness and Emergency Operations with HCA Healthcare. Today he will review hitting on these objectives:

- The need for actionable and realistic multiple casualty surge planning
- Unique methods of command, coordination, communication and intelligence (C3I) during a critical incident
- Approaches to plan and operationalize critical incident stress support to patients, staff, and the community
- Broader community healthcare multiple casualty planning and preparedness
- How HCA integrates a national healthcare resiliency model across its Enterprise

3:00

Break in the Exhibitors Hall

3:15

A New Class Act: The 2018 Guidelines and Major Revisions to Imaging, Procedure, and Operating Rooms

Bryan Langland, NBBJ —*This presentation will review major revisions in the 2018 FGI Guidelines for hospitals and outpatient facilities, focusing on the sections that address operating, procedure, and imaging rooms. The 2018 Health Guidelines Revision Committee (HGRC) made a concerted effort to align the definition and application of requirements for the various room-types where procedures take place. This alignment is based on the level of invasiveness of the procedure and the perceived level of risk to the patient. The HGRC also created a classification system for imaging that gives basic imaging room requirements, with additional details for specific modalities, so imaging room design can more easily adapt to new technologies. Also added are multi-layered clearances to the space requirements for procedure and operating rooms, and the appendix includes expanded guidance on determining OR size and layout, including a list of equipment often used in operating rooms.*

- Overview of FGI and HGRC and understanding of the major changes to 2018 FGI Edition
- Understanding of how the anesthesia work area has been defined
- General understanding of Exam/Treatment, Procedure and Operating room requirements, clear floor area, and clearances
- Introduction to the new Imaging room classification system

5:00 - 8:00

Pharmacy 797 and 800

Howard I. Cohen RPh, MS, FASHP, is the Director of Oncology Pharmacy Services at the Smilow Cancer Hospital at Yale New Haven Health. He is also the President of Safe Medication Management Associates, Inc.

Today's Learning Objectives Include:

- Review USP 800 standards
- Review USP 800
- Process for performing an assessment of risk to determine compliance to USP 800
- Strategies and/or work practices for operationalizing the conversion to USP <800>
- Understand the challenges involved

Attendee Lunch and Exhibitor Show

1:30

HVAC and Airborne Infectious Disease

William P. Bahnfleth, PhD, PE, FASHRAE, FASME, FISIAQ

Professor and Director, Indoor Environment Center Department of A/E

Concern regarding the risk of hospital acquired infections and the effect of the built environment on epidemics of drug-resistant diseases is increasing. The well-educated designer and owner needs to understand the mechanisms by which infectious disease is transmitted indoors, the extent to which HVAC system characteristics affect probability of infection, available means for controlling risk with demonstrated effectiveness.

Learning objectives:

- Explain the purpose and scope of the ASHRAE Position Document on Airborne Infectious Diseases
- Define the three most important modes of infection transmission
- Describe the three HVAC-based technologies demonstrated to reduce risk of airborne infections
- Distinguish between administrative, environmental, and personal approaches to infection control

3:00

Break in the Exhibitors Hall

3:15

“The Building Will See You Now”, the healing power of indoor air.

Dr. Stephanie Taylor

We spend most of our time indoors, yet there is little information relating to human physiology to indoor spaces. New research is yielding startling results, showing us how essential the built environment is to patient healing and employee health and productivity.

- Gain clear, actionable steps to design and manage the indoor built environment for optimal health.
- Examine the essential role of the building envelope in maintaining ideal indoor
- Find out how to collect your own data and the most relevant building performance metric, human health and understand how this benchmark relates to successful financial returns in businesses, education and healthcare outcomes.
- Learn how to enhance existing environmental hygiene protocols for more successful outcomes for children, senior and those in between
